Senate Bill.

Considerable Excitement Attend-An Upward Tendency in Stocks ing the Proceedings.

Washington Aug 18 A gloomy morning broke upon the majority of the House of Representatives and mombers were cardy in reaching the capitol. A meeting was beid in Speaker Criepe room this morning to decide what action the House leaders should take with reference to the tariff bill in the caucus. There were present in the committee room bedde the speaker, Mr McMillan of tennessee, Mr Montgomery of Kentocky Mr Turner of Georgia, and Mr Breckinnidge of Arkansus, also members of the committee. At five minutes before ten o'clock the statement was made on the authority of one of these gentleman that it had been decided to accept the benate bill. At ten o clock not more than two score of the members were in the chamber. I very one felt that the time bad arrived when some decisive action should be taken regarding the matters in dispute between the two boxess and the hore.

ber I very one felt that the time hadi artived when some decisive action should be taken regarding the matters in dispute between the two houses, and the hope was generally expressed that no opposition would be made to the benate bill in order that a speedy termination of the long contest should be reached. As the members gathered the air was full of rumors and a dozen cenflicting stories were in circulation. The inthin tion was should; given out last night by some of the House leaders that the berate bill would be accepted without material objection at the cancus to day while there was another report that at oday a caucus the House leaders would insist upon a policy of delay, in the hope that some agreement might yet be runched in conference, fairly satisfactory to all sides.

for the Democratic party, it was not seen itsult.

Costinuing Mr Wilson made a special reference to the sugar schedule. He briefly stated the different propositions relating to sugar which had been advanced in the conference, and proceeded vanced in the conference, and proceeded to show at some length the profits which would accrue to the trust from the acceptant, of these various propositions Contrary to expectation he made no refrence, except incidentally, to the Seant conferees, or did he in any way criticise.

The Position Taken by them regarding this and the other items in dispute

A report that reached the corndors from the caucus a few minutes before 11, was that Speaker Crisp or some one of the House leaders would offer a reso lution to accupt the Senate bill and that the understanding was if such a resolution should be adopted it would be followed by the passage through the House lowed by the passage through the House

Interproposition was rejected, inasmuch
as the representatives of the House had
ascertained that a compact existed in the
Senate to defeat tariff legislation or
postpone its convidention until next
December if free augar were nade a part
of the conference report. He turned at
this point and called upon his associates,
Montgomery, Breckindige, McMillin
and Turner to substantiate this statement

Two Propositions

were made by the Crip resolution On the motion to accept the Senate bill the vote stood 130 to 21. There was no decision on the vote to pass separate bills, plating coal, sugar, from ore and barbed wire on the free list. Mr. McMillan immediately arose and said that from the beginning of the conference they had been given to under stand from day to day that any displace must of the Senate votes on sugar, coal and iron ore would lead to the absolute defeat or at least the postponement of the bill.

ind iron ore would lead to the absolute defeat or at least the postponement of the bill.

Mr. Wilson stated substantially that there was no prospect for tariff legislation unless the Seaate bill was adopted. When Mr. Wilson had finished Speaker Clipp arose, and wis greeted with applicate the began by saying that the llouse must take the benate bill. While the 5 nate bill must be adopted the House would thake 5 determined effort for free sugar. He distorated his state ment that the, Senate bill must be accepted or there would be no tariff legislation at this session. And his declaration that the House had used every honorable and fair means to secure the passage of this bill, without avail, was vigorously applicated. Speaker Crisp closed his brief spreech by offering a resolution that the House recede from its position, and accept the Senate bill. The resolution also includes a provision, placing barbed wire, shgar, coal and iron on the free, list, by a series of separate bills.

Bearise Colkrain then took the floor in opposition to the resolution. Mr. Cockrain contended that he, as yet, lad no information which would lead him to believe that the House bill could not be adopted. Tarning toward Mr. Wilson he challenged the gentleman to give the names of the four Sonators who stood in the way of an agreement. He did this twice, but Mr. Wilson remained silent. He was proceeding with his argument against the resolution when his uterances were drowned by a series of derisleve yells, mingled with the words of derisleve yells, mingled with the words of derisleve yells, mingled with the words.

The Situation."

The Situation."

The Situation."

The vote was then taken and the resolutions offered by Mr. Citap were adopted by a vote of 102 to 21. Among those who voted in opposition to the resolutions were the four Louisiana members, Mr. Weils, of Wiscousin, and Mr. Snodgrass, of Tennessee. Opinions vary as to the correctness of the vote, it being claimed by some that the affirmative vote was at least 125 with 21 in the negative. It was a rising vote and taken amid some confusion.

A few minutes subsequent to the anouncement of the vote it was explained that the first question put to the caucus was on ordering the previous question on Speaker Criap's resolution, and that the vote of 102 to 21 was on that question and not on the adoption of the reso-

lution After the previous question had been ordered, which is considered equivalent to the adoption of the resolution like Louislans members were given ten minutes to explain their position. Mr Robertson, speaking for the delegation said that the sugar growers had made their contracts for the current fiscal year and that any abtion by Congress abolishing the bounty for the next twelve months would work a severe injury to their interests. The Crisp resolution was divided into two questions. On the motion to accept the Senated bill the vote resulted, year 130, nuys, 21.

Among those voting in the negative were Robertson, Davey, Mevel and Price, of I oulsiana Tarsney, of Missouri, Warner, Strings, Iracty, Cockrun, Covert and Dunphy, of New York filigore, of Texas, Dockery of Missouri, Cooper of Indiana, and McKalg, Rayner, Rusk and I albot, of Maryland
On the motion to pass separate bills placing sugar coal and irmo ore and barbed wire on the free list there was no division. This having completed the work of he caucus the meeting was, it 1152 injourned sine die.

The Democratic Members

The Democratic Members of the House Committee on Rules retired shortly before moon to the Speaker's room for the purpose of preparing the orders for despatch of business in accordance with action of caucus. They called in Messrs i ced and Burrows Republican members, and submitted to hum the form of the orders they desired to pass. London, Ang 13 In commenting on the tariff bill debate in the United States Congress the Times says It is high time this discreditable business were brought to an end The whole thing is a purty game. Each move is calculated and determined by sole reference to the probable effect on the elections. The Democrats, it must be admitted, had a somewhat difficult game to play, but if the Democratic Sonators had been a little loss crafty and a little more straight-forward, it would have been a wise choice. The real winners have been the Republicans, who have been gaining in oredit at each step which has sunk their opponents more deeply in the mud. In an article on tariff legislation in the United States the Pail Mail Gazette says that the present deadlock in Washington is bound to strengthen the Republicans and may result in a virtual return to the McKinley principles.

House Caucus Votes to Accept

WALL STRILT; Aug 11, 130 P M It looked a little like old times at the Stock Exchange for an hour or so after the an nouncement was mide that the House caucus had agreed to accept the Kenate tailf bill there were orders enough and to space and the brokers for the flist time in months were kept busy executing commissions for local and out of town operators fraders seemed inbuck with the lide a that the tariff agitation which has been such a screens drawback for a year or so, has at last been settled and that the country was on the threshold of a now era of activity | Sugar jumped 103½ to 103½, loud 1½ to 44 preferred, 1½ to 33 and leather preferred 23 to 34 to 33 and leather preferred 23 to 1½, the Grandgers I outsville and Nash ville Western Union, Miscotti Pacific, Union Pacific

reached in conference, fairly satisfactory to all sides.

Mr Holman chairman of the caucus, took the chair. When the roll call, which showed that log members were present was completed, a hush of expectancy fell upon the caucus.

Mr Wilson took the floor Although outwardly calm and cool be was manifestly laboring under deep emotion. His speech for the first five minutes was general in character and contained no specific points. It was devoted in the biginning to an explanation of the emburassionts under which the House conference with a deaire of their colleagues. If they had failed to their colleagues.

Mys Alice S Eavy, Cora Johnson and Grace Lowell, aged 19, 18 and 17 respectively, were drowned in the American river at Auburn, Cal., Sunday. They were widing in the river when one fell. The others went to her assistance and all were drowned.

In Woodbury chunty, Iowa, in the bond lolunction case, home startling evidence hus been brought out. From the testimony of ex Deputy Auditor Roberts, it appears there has been an organized movement among certain officials to rob the county. Roberts implicates himself and a number of other officials. The stealling been going on for years, and it is thought the county has been robbed of many thousands of dollars.

nuescus meal sat before them, which they themselves have described Upon my word, I never have heard of such a spectacle in parliamentary history, or any other I will not dwell upon that because my, point is entirely upon the parliamentary situation. I say there can be no better example of the absurdity of the doctrine which that rule contemplates to hold than just this present. It is intended that the laws of this laud shall have the assent of both houses, but thus far this bill has had the dissent of both. Thus far it has opposition on both, and this House is endeavoring to take a snap judgment, ready to take what it has so interly denounced on all occasions, for four of worse.

Speaker Crisp in ruling upon the point of order made by Mr Reed, is was necessary to look not only at the position of the bill, but also at what was proposed.

After relating various stress in the

posed to beldone by the resolution ic ported.

After reduing various stips in the progress of the bill to the present time, the speaker said as to its parlamentary status Mr Reed and cited the scope and effect of Jefferson's Manual This rule, however he said, proposed to change Jefferson's Manual, and the question was not whether what was proposed to be done was according to that authority, but whether the change in the rules would be valid, legal, binding The House, Mr Crisp said, had the right to change rules based on the Manutal as well as any other rule

The case sighted by Mr Reed from the JSth Congress was not in point. As to

The case sigbted by Mr Reed from the

the legality of the proceeding the Speaker sind he found a precedent in the proceedings of the 12d Congress, which was

in that instance the bill was introduced
in the Senate and after reaching the same
stage as the tarift bill at the present, the
Senate receded from the disagreement to
the House amendments and the bill became a law

At the same dats (June 10, 1872) the
journal of the House showed that the
bill was in that body. The object of all
the conferences, said Speakt Crisp, was
to get the minds of the two houses togethet. While the conference connatitee was still in existence it has been
beld that one house might recede from a
disagreement to amendments of the
come a law. In support of this position
the Speaker had the clork read from a
decision of Speaker Carlisle to the effect

I'We immediately stopped the engines. If we had run ten, perhaps five minutes longer, the crank would have slipped off and heaven only knows what might have been the result. The ramning of the wreek was a God-send to us. We shut off the high pressure ports and hurred the key the best we could and made for Newport under the low pressure engines. I immediately forwarded a report of the affair to the edmunder of the station and now the report goes abroad that the Atlanta was disabled by running into an old, waterlogged wreek.

"I propose to rise to a question of privilege in this matter" (meaning that he would ask for a court of inquiry) "We could have cut that vessel in two without difficulty, even had she been covered with heavy steel plate, without injury to the Atlanta."

ISLESBOROUGH NOTES

Painful Accident—Narrow Esaape from Drowning. At no time in the history of Islesboro at Ryder's Cove, or what is its better and older name, Sabbath Day Harbor, has there been so successful a season as has been had this year; Our correspondence from that delightful resort has given a good idea of what there is there to enjoy and the numbers who have been there to

enjoy it. On Saturday afternoon the fast sailing steamer Sedgwick, with the always genial and capable Captain George H Barbour in command, and the equalty suave and obliging agent, Col. Frank D. Pullen on board, took down river a load of humanity equal to the capacity of the Sandy Point took some, Fort Point

ore, a number stopped at Castine, but the greater number made their destinagereans have beautiful and delightfully Ituated cottages and so many others are etopping at The Islesborough and at various other boarding houses on both sides of the island. The Islesborough, under the excellent

management of A. E. Spencer, the effi-cient Steward of the Maine State College, and his lady-like and helpful wife, Mr. Abel Hunt has gone to New York under the general supervision of Col. Pullen, has been all that could be desired during the present season, and all visitors have joined in paving a high compil nent to the excellent menu and promp and efficient service

The number of guests which arrived on Saturday, when added to those who were already there, was so great as to necessitate the doubling up of guests in number of rooms, but aside from the nconvenience of being obliged to share ne's room with another, nothing was left to be desired. it was with great regret that the

arriving Saturday evening learned of a painful accident to the little daughter, Alice, of Mrs 1 A Barker, on Saturday, by which, in falling, she broke both bones of her left forearm A physician was aummoned who reduced the fracture and the little one is getting along quite comfortably. All the ladies at the house exerted themselves to their utmost to do sverything possible to help her and her mother in her distress und also in devising means to turn the little girl's mind away from her trouble and pain

It is an old saying that "misfortunes never come singly," and we believe that Mrs Barker will bereafter, if not bereto fore, be a believer in that adage

On Sunday afternoon her son I ewls with two companions, took a cat boat for a run over to Northport. When near Furtle Head a sudden libing of the boom caused it to strike him in the eye and knock him overboard, and when seen in the water was twenty feet away John Stevens, who was at the tiller, with great presence of mlud and skillfu seamanship brought the boat immediately about, so close that it ran right over Mr Barker, who had gone down for the second time, and he was caught by the hair just in time to save his life lie, his mother and his companions are to be congratulated upon his fortunate escape with his life

The usual Saturday evening hop a The Islesborough brought together t arge number, and the floor was filled with flying fect to the music of the vio lin under the skillful manipulation of Mr. Harold W. Sawyer, Miss Brown giv ing some pleasing selections on the piano

Sunday evening there was a crowd which more than filled the large music hall, to listen to the customary Sunday evening concert Col. Pollen was mas ter of ceremonies, and everything went off to the great delight of those in attendance. The sacred hymns were well selected, and the violin select by Mr Sawyer and the vicul solos by Mrs Whit tridge and Mrs Wilson,-the latter accompanied by Mr Sawyer in a violin ob ligato.-and a sweet song by little Miss Weston, daughter of Mr F. C Weston gave much delight.

All went off in the most satisfactory panner and the cottagers who were present, some from long distances, were equally as well delighted as were the soourners at the hotel

Some of the ladles and gentlemen boarding at the house went out for wild flowers and ferns on Saturday, with which the music hall was most beautifully decorated for the dance and con-

dance, one at the hotel and notably one at the cottage of Mr Thomas W. where a large number of friends enjoyed themselves to their hearts' delight, the cottage being dazzlingly illuminated, inside and out, with Chinese lanterns, etc Among those present to enjoy the con-

eert Sunday evening was Rev. Fr O'Brien, of Belfast, who held services on Sunday at Dark Harbor The ladies indulge much in the invigorating exercise of bowling in which Miss Marion Davis, of this city, stands at the head, Mrs. Fred W Gould and Mrs F. J. Gallagher. both of this city, following next in or

It was amusing to see the quiet manner in which four prominent Bangor men dropped out from the bowling alley evening, after those present saw their scores and the scores of the last two named ladles above. They could talk about tariff or any other sub

ject except bowling.
It has been said so often that it seems unnecessary to repeat it, that Islesore is a most charming summer resort. and this fact is attested to by the large nmber of fine cottages built there and being built, mostly by citizens of Ban-While many are more imposing. that of Mr. Thomas W. Burr is one the most interesting, it being one of the oldest houses on the island, probably seventy-five years old at least, and while it has been remodelled to accommodate a large number of friends, the latch string is always out and all are made

The remainder of the season will bring anny more visitors, to what is truly abbath Day Harbor, and all will with out question only their visit.

Washington Ang 13 The reading of Saturday's petral was dispensed with and the conference report on the sundry civil appropriation bill was preented and read There were some half a dezen points of deagreement, but as to all the re-maining anti-ducents of the Senate the contrence committee had arranged them, and the report to that extent was

agreed to.

Mr Sherman moved that the Senate recede from one of the alandoning still in dispute, that for the purchase of the lot as a slid for the government printing office. office Action upon the motion was deferred to order to allow Mr. Gray, (Dam. Del.) to make a motion that the brante proceed to executive business.

That motion was made and agreed to, and at 12 20 the Minute went into executive season, the changes treat being the principal matter to be disposed of.

This treaty was ratified by the Minute by a vote of 47 to 20, the morthwestern senators generally voting against the treaty. Senators lodge and float, of Massachusbits, also voted against ratification.

not entitled to receive it.

He rend from Jefferson's Manual to allow that the papers in the cast the longed to the house assenting to the request for a conforence. This case (the coffax declaion), said Mr. Reed, is authority for two propositions: First, the conforence report must be acted upon primarily by the body which assetts to the conference; second, that quently the papers were before the House, inless they were rightfully before the House, inless the House had no authority to act. These two propositions are periodicy plain and clear in parlimentary law.

The status of the bill in case of it disagreement is also equally clear. Indicate that the action of the two houses, no dispute being mide, is often irrigalar, but never, as far as my knowledge goes, when the point has been rulered and the question presented to either of the bodies, do I recollect that the keylto the whole situation is the rule that no house can act upon papers not properly before it. If it were possible, that it is should be

otherwise we might see the two bodies

otherwise we might see the two bodies acting at the same-time upon the same or similar papers, which could only lead to confusion and discredit to the business incition of both houses.

The papers then, it being a case of agreement, are properly before the Senate, because that body was the body that hat so going to do now under this acked for the confurence. There can be no better which it is meaned soundpess of this than the actual position of public affairs at this moment. The Senate said the will pass your billity on will adult our amendments. That was July 3d. The House i refused the same and the scrape of the resolutions expired and a voté was always and the actual position of public and the actual position of public and the setting of the conference which resulted the setting of the senate votes. The bill must be in the hands of the Senate, although it may be in the corter of the senate to-day is proposing action upon it. He went home, threw off his swoid belt and seated him self in a hig easy chair before his fire place, deep in thought Onje or twice he arcse and paded rostlessly up and down the room, as he had dome in his excited talk with Rollins some few hours before. Then he was simply argry and argumentative or declamathy. New he had settled down into a very different frame of mind. He seemed awed, stunned, crushed. He had all the bearing and men of one who, having definantly predicted a calamity, was thunderstruck by the verification of his prophecy. 'Confound you, Sloat! I wouldn't rout you out in this shabby, way Why couldn't you lot a man sleep? I m tired half to death "

thunderstruck by the vermention of me prophecy
In all his determined arruignment of Mr Jerrold, in all the harsi things he had said and thought of him, he had never inagined any such depth of secondrelism as the revelations of the night foreshadowed Chester differed from many of his brotherhood. There was no room for regioning in his heart half to death."

Chester fairly started He had night need to see this young gallant He was staying for that purpose, but should he listen to further talk like this? Too late to move for Slout sanswer pame like a shot those who called him cynical crabbed, anjust even majicious, would now he compelled to adout he was right in his estimate. Like the best of us Chester could not ordinarily say 'Vado retro' to the temptation to think if not to say 'Didu t I tell you so'" when in overyday affairs his off disputed views were proved well founded. But in the face of such a catsastrophe as mow an face of such a catastrophe as now ap peared engulfing the faur fame of his regiment and the honor of those whom his colonel held dear Chester could feel only dismay and grief. What was lust distributed in the light of the discoveries be had made? To the best of his belief, he was the only man in the garrison who had evidence of Jurrold s absence from "I bet you you never could!"
"But didn t I tell you I had a week Aye, but I didn't believe it You couldn't show it!
